**V7553 "1981 WEEKLY FOOD NEEDS"**

**NUM(5.1)**

Weekly Food Needs

*This variable's values are based on USDA Low-Cost Plan estimates of weekly food costs, according to the table below (reproduced from Family Economics Review, June 1967), summed for the family as it was at the time of the interview.*

*INDIVIDUAL FOOD STANDARD (LOW COST)*

*\$3.90 for both males and females under age 4  
 \$4.60 for both males and females age 4-6  
 \$5.50 for both males and females age 7-9  
 \$6.40 for males age 10-12  
 \$6.30 for females age 10-12  
 \$7.40 for males age 13-15  
 \$6.90 for females age 13-15  
 \$8.70 for males age 16-20  
 \$7.20 for females age 16-20  
 \$7.50 for males age 21-35  
 \$6.50 for females age 21-35  
 \$6.90 for males age 36-55  
 \$6.30 for females age 36-55  
 \$6.30 for males age 56 and older  
 \$5.40 for females age 56 and older*

*This same standard has been used in previous waves. Since the table is from 1967, values are in 1967 dollars. Adjustments for inflation, etc., are left to users.*

*The actual weekly food needs in dollars and cents are coded here.*

**V7554 "1981 ANNUAL NEED STD"**

**NUM(5.0)**

Annual Need Standard in 1980

*This is the Orshansky-type poverty threshold based on an annual food needs standard which is derived from the weekly food costs in the preceding variable, converted to an annual amount, and adjusted for economies of scale by USDA rules as follows:*

*Single person . . . . .add 20%*

*Two persons . . . . .add 10%*

*Three persons . . . . .add 5%*

*Four persons . . . . .no change*

*Five persons . . . . .deduct 5%*

*Six or more persons . . . . .deduct 10%*

*An additional adjustment for diseconomies of small households (in rent, etc.) was made as follows:*

*4.89 times the food needs for single persons*

*3.70 times the food needs for two-person units*

*3.00 times the food needs for all other units*

*Please refer to the Wave VII (1974) Documentation volume, pp. 39-41, and to the User Guide for further details on the need standard. (It makes use of the table in the previous variable, which is in 1967 dollars.) Note that this variable is not adjusted for inflation, nor is it exactly comparable to the official poverty standard; such changes are left to users. This need standard is adjusted for changes in family composition during 1980 and is not adjusted for farmers.*

**V7789 "C87 TIME TO WORK (HD-E)"**

**NUM(3.0)**

C87. About how much time does it take you to get to work each day, door to door?

*Actual number of hours per year*

The values for this variable in the range 001-998 represent annualized hours spent traveling to and from work. These hours are calculated by multiplying the travel time in hours times the number of trips per week times the number of weeks worked in 1980. Trips per week are assigned on the basis of hours worked per week on the main job (V7742) according to the rule below. Note that for a Head who did not work in 1980 but is now working, this variable equals zero. All missing data were assigned.

If hours worked per week were less than 10, either 2 or 4 trips per week were assumed, whichever seemed more reasonable. If less than 20 hours per week were worked, 6 trips per week were used. Under 35 hours worked meant 8 trips assumed; less than 48 indicated 10 trips, and for 48 or more hours, 12 trips.

D59. On your last job, how much time did it take you to get to work each day, door to door?

*The values for this variable in the range 001-998 represent annualized hours spent traveling to and from work. These hours are calculated by multiplying the travel time in hours times the number of trips per week times the number of weeks worked in 1980. Trips per week are assigned on the basis of hours worked per week on the main job (V7822) according to the rule below. All missing data were assigned.*

*If hours worked per week were less than 10, either 2 or 4 trips per week were assumed, whichever seemed more reasonable. If less than 20 hours per week were worked, 6 trips per week were used. Under 35 hours worked meant 8 trips assumed; less than 48 indicated 10 trips, and for 48 or more hours, 12 trips.*

**V7911 "F38 TIME TO WORK (WF-E)"**

**NUM(3.0)**

F38. About how much time does it take your (Wife/friend) to get to work each day, door to door?

*The values for this variable in the range 001-998 represent annualized hours spent traveling to and from work. These hours are calculated by multiplying the travel time in hours times the number of trips per week times the number of weeks worked in 1980. Trips per week are assigned on the basis of hours worked per week on the main job (V7905) according to the rule below. Note that for a Wife/"Wife" who did not work in 1980 but is now working, this variable equals zero. All missing data were assigned.*

*If hours worked per week were less than 10, either 2 or 4 trips per week were assumed, whichever seemed more reasonable. If less than 20 hours per week were worked, 6 trips per week were used. Under 35 hours worked meant 8 trips assumed; less than 48 indicated 10 trips, and for 48 or more hours, 12 trips.*

*The values for this variable represent hours per year.*

**V7936 "G24 TIME TO WORK (WF-U)"**

**NUM(3.0)**

G24. On her last job, how much time did it take her to get to work each day, door to door?

*The values for this variable in the range 001-998 represent annualized hours spent traveling to and from work. These hours are calculated by multiplying the travel time in hours times the number of trips per week times the number of weeks worked in 1980. Trips per week are assigned on the basis of hours worked per week on the main job (V7935) according to the rule below. All missing data were assigned.*

*If hours worked per week were less than 10, either 2 or 4 trips per week were assumed, whichever seemed more reasonable. If less than 20 hours per week were worked, 6 trips per week were used. Under 35 hours worked meant 8 trips assumed; less than 48 indicated 10 trips, and for 48 or more hours, 12 trips.*

*The values for this variable represent hours per year.*

You are under no obligation to answer these questions, and, if for any reason you decide you do not wish to answer them, we will accept and respect your decision. The information requested is important to us, and we hope you will decide to answer them. May we record your religious preference?  
*This question was not asked of any Head until 1976, nor of new Heads in 1978. If the family has had the same Head since at least 1978, the value for this variable is zero.*

M38, M39. Is your religious preference Protestant, Catholic, or Jewish, or what? What denomination is that?

*This question was asked of all Heads in 1970, and for all new Heads in 1971 through 1977. Values were brought forward from previous data each year for families with the same Heads.*

*In 1978, however, the question was not asked. In 1979, when this question was reinstated in the questionnaire, values were not brought forward for families with unchanged Heads since 1977. Therefore, cases with the same Head since at least 1978 must by necessity contain missing data (i.e., a value of zero). For those cases with the same Heads from 1977 through the present, please use 1977 religious preference, V5617.*

**V8110      "HOUSEHOLD ID # 81"**

**NUM(4.0)**

Household Identification Number

*This variable was generated to simplify the clustering of multiple panel family units residing in the same households. Its values were assigned simply by selecting a 1981 ID number (V7502) with the lowest value from among the 1981 ID numbers of those families comprising each such household group. This value was used in these file positions for all of the related households. Thus, if the user sorts the data ordered by this variable, the family units within larger household groups will be adjacent to each other. Family units who did not share their households with any other family unit or shared only with non-panel family units were given their own values for V7502.*

**V8112 "CENSUS NEEDS STANDARD-1980"**

**NUM(5.0)**

Annual Needs Standard for the 1980 Family--CENSUS VERSION

*This poverty threshold was taken from Census Bureau's website, <http://www.census.gov/hhes/www/poverty/data/threshld/index.html>. We have used the table entitled 'Poverty thresholds by Size of Family and Number of Children'*

*The threshold values are based on family size, the number of persons in the family under age 18, and the age of the householder. Due to some of the limitations of our extant files, we were unable to generate the number of months for those individuals who moved out of multiple families in the same wave. Otherwise the calculation of needs is similar to that described in Section I, Part 5, of guide to the 1993 PSID data, 93GUIDE.PDF.*
